

## Our Values

As business owners, parents and global citizens, we are deeply committed to the environment and sustainable living.

We are transitioning all TreasureRome apartments into "green" homes and hope you'll join us in helping to preserve the planet for the next generations.

# How We Help

## Water

Rome is a city blessed for its delicious, fresh water. We encourage our guests to drink the tap water in the apartment and to carry a reusable water bottle to refill at the water fountains around the city.

## Air Conditioning

All TreasureRome homes have powerful air conditioning units but please be mindful of your use and be sure to turn off the air conditioning when you leave the house - it will help save precious energy!

## Toiletries

We use ecological toiletries and products throughout the house to cut back on our carbon footprint. Less chemicals = better.

## Recycling

You will find recycling bins outside of your apartment for glass, plastic, paper and mixed trash. Please separate trash in the following manner:

- Glass: vetro
- Plastic: plastica
- Paper: carta
- Mixed: differenziata

## Coffee

Your home has a Nespresso machine but we encourage guests to make coffee with the traditional "Moka Pot" like the locals. There is no plastic waste and we think the coffee is even more delicious!

## Giving Back

At TreasureRome, we take corporate social responsibility seriously and are proud to be part of The Star Throwers, a group of vacation rental professionals that is dedicated to creating a better world for travelers and our local community.

We support the Real Pearl Foundation to transform the lives of impoverished children in eastern Hungary. The Real Pearl Foundation promotes inclusion and change through art and education.
